Seminars/case presentation- class room B2 51 - except 6,7 May -class room B2-50

S1	Physical development. Assessment of growth (P.Kwinta)
S2	Fever (P. Kwinta)
S3	Fetal and neonatal circulation. Transition period. (K.Starzec)
S4	Infectious diseases in neonates (M.Jagła)
S5	Differential diagnosis of proteinuria, erythrocyturia and pyuria (K. Wilkosz)
S6	Congenital defects of kidney and urinary tract (A. Moczulska)
S7	Congenital heart defects. History and physical examination. Major and minor clinical signs (Z. Kordon)
S8	Vomiting, diarrhoea, dehydration (K.Kowalska-Duplaga)
S9	Lymphadenopathy, hepatoand splenomegaly (A.Wieczorek)
S10	Anemias in children, bleeding disorders (D. Pietrys, W.Balwierz))
S11	Normal and abnormal growth (M. Wójcik)
S12	Normal and abnormal puberty (D.Januś)
S13	Assesment of motor, cognitive and speech development (A. Gergont)
S14	Food allergy. Anaphylactic shock. (U.J-Wąsowicz)
S15	Diagnostic and therapeutic management of children with acute and chronic respiratory disorders (G. Lis)
S16	Respiratory failure – definition, causes, diagnostics, treatment (G. Lis)
S17	Allergic diseases: asthma, allergic rhinitis, atopic dermatitis, (definition, diagnostic and therapeutic approach). (E.C-Jarosz/U.J-Wąsowicz)
S18	Genetic lung diseases: Cystic fibrosis (definition, genetics, symptomatology, diagnosis, treatment and screening). Primary ciliary dyskinesia (G. Lis)
S19	The diagnosis of definitive or probable tuberculosis in children. A child who had a contact with adult with tuberculosis disease. (B. Kusak)
S20	Pneumonia - classification, clinical course, imaging techniques - USG, CT (W.Durlak)
S21	Jaundice (P. Kwinta)
S22	Nutrition of a healthy child and with gastrointestinal diseases (A.S-Gaudyn)
S23	Development of GI tract and congenital gastrointestinal anomalies (K. Fyderek)
S24	Chronic diarrhoea (K. Kowalska-Duplaga)
S25	Chronic abdominal pain. Functional disorders of GI tract (Z.G-Adamek)

Bedside teaching

gr I, IV-Pediatrics Dep., gr. II,V Nephrology Dep., gr. III,-Gastroenterology Dep	B1	Hospitalized child. The rules of patient and parents respect. Patient's records.
gr I, IV-Pediatrics Dep., gr. II,V Nephrology Dep., gr. III,-Gastroenterology Dep	B2	Taking history in pediatrics
gr I, IV-Pediatrics Dep., gr. II,V Nephrology Dep., gr. III,-Gastroenterology Dep	B3	Assessment of general condition. Assessment of growth
gr I, IV-Pediatrics Dep., gr. II,V Nephrology Dep., gr. III,-Gastroenterology Dep	B4	Skin, subcutaneous tissue, lymph nodes. Assessment of nutrition
gr I, IV-Pediatrics Dep., gr. II,V Nephrology Dep., gr. III,-Gastroenterology Dep	B5	The chest: inspection, percussion, auscultation. Blood pressure measurement
gr I, IV-Pediatrics Dep., gr. II,V Nephrology Dep., gr. III,-Gastroenterology Dep	B6	The most common symptoms of respiratory tract disorders:cough,dyspnoea, stridor, cyanosis, physiological and pathological auscultatory findings
gr I, IV-Pediatrics Dep., gr. II,V Nephrology Dep., gr. III,-Gastroenterology Dep	B7	The abdomen-inspection, bowels sounds,percussion and palpation. External genitalia examination
gr I, IV-Pediatrics Dep., gr. II,V Nephrology Dep., gr. III,-Gastroenterology Dep	B8	The most common symptoms of GI tract disorders:pain, vomiting, diarrhea, constipations, hepatosplenomegaly
gr I, IV-Pediatrics Dep., gr. II,V Nephrology Dep., gr. III,-Gastroenterology Dep	B9	The muscular strenghtand tone. Deep tendon reflexes. Meningeal signs in different age.
gr I, IV-Pediatrics Dep., gr. II,V Nephrology Dep., gr. III,-Gastroenterology Dep	B10	Oral cavity, nose and pharynx. Symptoms of oral cavity disorders. The neck examination.
gr I, IV-Pediatrics Dep., gr. II,V Nephrology Dep., gr. III,-Gastroenterology Dep	B11	Examination of extremities and joints. Active and passive range of movements. Hips examination.
gr I, IV-Pediatrics Dep., gr. II,V Nephrology Dep., gr. III,-Gastroenterology Dep	B12	Summary-full physical exam.Case presentation by the student
	P1	Acute and chronic upper respiratory tract infections. Laryngitis and epiglottitis.
	P2	Bronchiolitis – management and prevention.
	P3	Asthma, chronic bronchitis, post nasal drip syndrome. The techniques of inhalations and nebulization.
	P4	Community acquired pneumonia. Complications – empyema, abscess. Nosocomial pneumonia – prevention.
	P5	Artificial ventilation. Chronic assisted ventilation. Tracheostomy. Blood gases analysis.
	P6	Chronic cough – diagnostic and therapeutic management. Pulmonary function tests: spirometry, challenge tests, PEF. Recommendation for flexible bronchoscopy
	P7	Urticaria/angioedema. Allergy testing: Skin prick tests, intradermal tests, patch tests, blood tests – recommendation and interpretation.
	G1	Gastroesophageal reflux disease. Infant regurgitation. Stomach ulcers and H. pylori infection.
	G2	Inflammatory bowel diseases.
	G3	Additional tests in pediatric gastroenterology (hydrogen breath test, manometry). Endoscopic examinations.
	G4	Acute infections of GI tract.
	G5	Urgent conditions in pediatric gastroenterology.
	G6	Approach to neonatal and childhood jaundice.
